

TARGET: Science & Engineering Program

2009 STUDENT EVALUATION FORM

General Information

Fermi National Accelerator Laboratory's **TARGET: Science & Engineering Program** is directed at students who have shown academic potential and interest in mathematics and the sciences. Applicants must have completed at least the freshman year of high school. The program's goal is to provide participants a rich science and engineering summer experience through academic enrichment and practical applications. It is hoped that these exposures will encourage scientific and engineering research interest and stimulate the pursuit of degrees and occupations in the sciences and engineering.
